SUMMARY

Detail-oriented Information Technology undergraduate with hands-on experience in software quality assurance, manual testing, and Agile software development. Skilled in functional and regression testing, Selenium WebDriver, Postman, Jira, SQL, SDLC, and STLC, with a strong interest in building a career in Software QA.

EXPERIENCE

Software QA Intern

CellPay Pvt. Ltd.

February 2026

Kathmandu, Nepal

- Assisted in executing manual test cases for fintech web and mobile applications based on business requirements.
- Performed API validation using Postman and SQL queries to verify backend functionality & transaction data integrity.

Software Engineer Intern

Outside

April – June 2026

Kathmandu, Nepal

- Developed and tested a full-stack WordPress application by performing end-to-end manual and functional testing across frontend and backend features throughout the development lifecycle.
- Designed and executed test scenarios, identified and documented UI and functional defects, validated fixes, and collaborated closely with developers to improve software quality.
- Participated in Agile ceremonies including sprint planning, backlog refinement, daily stand-ups, sprint reviews, and retrospectives while supporting software delivery and release readiness.

Hackathon Participant – Chairman's Choice Award Winner

DAV Codefest 2025

July 2025

48-Hour Hackathon

- Collaborated in 48-hour software development sprint, testing application, identifying defects and usability issues.

EDUCATION

King's College

Bachelor of Science in Information Technology — GPA: 4.0

Kathmandu, Nepal

Expected 2027

KMC College

Higher Secondary Education, Science Stream — GPA: 3.42

Kathmandu, Nepal

2020 – 2022

SKILLS

- Testing & QA:** Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, API Testing, Black-box Testing, White-box Testing, Test Case Design, Test Scenario Design, Test Plan Creation, SDLC, STLC
- Automation & QA Tools:** Selenium WebDriver, Postman, Jira
- Databases:** PostgreSQL
- Programming:** Python, JavaScript, C, C++, HTML/CSS/SCSS, PHP
- Version Control & Tools:** Git, GitHub, VS Code, Figma
- Methodologies:** Agile (Scrum), Requirement Analysis

SOFTWARE TESTING & DEVELOPMENT PROJECTS

Web Automation & Test Validation

Python, Selenium WebDriver, Pandas

- Developed automated validation scripts to verify scraped data accuracy by identifying missing values, duplicate records, and formatting inconsistencies, improving data quality and reducing manual verification.

Appian - Manual & Functional Testing

WordPress, PHP, JavaScript, HTML, SCSS

- Supported project delivery by coordinating content integration, feature testing, and issue tracking while collaborating closely with developers and designers throughout the development lifecycle.

Artha – Mobile Application Testing

React Native, Supabase, PostgreSQL, TypeScript

- Executed functional testing for expense tracking, earnings management, chatbot functionality, and financial reporting features while validating backend data consistency and reporting defects during development.

ADDITIONAL INFORMATION

Core Competencies: Attention to Detail, Team Collaboration, Problem Solving, Adaptability, Analytical Thinking

Languages: Nepali (Native), English (Fluent), Hindi (Fluent)
